

ENVIRONMENTAL POLICY

The Company's Management and all **GETREMED LTD** employees are committed to taking measures to protect and avoid pollution in the environment.

The company ensures that all of its operations related to the supply of medical devices and services are in compliance with applicable environmental legislation and the requirements of other stakeholders.

The primary purpose of the company's Environmental Policy is to minimize the environmental impact of its activities, and its constant concern is:

- to reduce the waste produced by its activity;
- to promote recycling;
- to reduce consumption of energy and natural resources;
- to reduce harmful emissions occurring from its activity;
- where feasible, to make use of equipment and means of new environmentally friendly technology;
- where feasible, cooperation with suppliers and subcontractors who take into account Environmental protection in their activities.

To achieve its objectives, the company **GETREMED LTD**

- has implemented an Environmental Management System that meets the standards of the international standard ISO 14001:2015 and applies to all environmental parameters of the company. The environmental management system is monitored, maintained, and improved through inspection, evaluation, and review processes;
- provides sufficient resources for environmental management, including expertise, appropriate equipment, and trained and competent personnel;
- establishes environmental objectives and targets, whose implementation is regularly assessed and evaluated. Simultaneously, systematic measurements are taken, and essential factors and processes are analysed in order to remove or mitigate the company's negative environmental consequences.

The company's management is committed to continuous improvement of its environmental performance and Environmental Management System, as well as compliance with applicable Environmental Legislation, and this is based on the active participation and support of all employees.
